# Index to Nation's Cities Weekly

**January-June, 1979**

INDEX TO NATION'S CITIES WEEKLY

JANUARY - JUNE 1979

FEBRUARY, 1980

PREPARED BY THE MUNICIPAL REFERENCE SERVICE  
NATIONAL LEAGUE OF CITIES

1620 Eye Street, NW  
Washington, D.C.  
20006

### Introduction

This index provides access to subjects, people, places and organizations covered in Nation's Cities Weekly. Each mention of a city is indexed (except where the city name is only used to identify a person), but people and organizations are only indexed when they are a substantive part of the article, rather than named in a single paragraph.

When a place is listed in an article and not further discussed, the term (listed) is included in the entry.

Organizations are entered directly under their names, e.g.

Advisory Commission on Intergovernmental Relations

First National Bank of Boston

University of Southern California

except that governmental units with certain non-distinctive words at the beginning of their names (i.e. Department, Office, Bureau) are indexed under the meaningful part of the name instead:

Labor, U.S. Dept. of

Census, U.S. Bureau of the

A government agency is generally not indexed unless the article discusses its organization, staffing, etc. Discussions of programs in a specific area are indexed under the subject only. To do otherwise would be to create long lists of entries under the major agencies such as HUD, DOT, etc. Actions of a specific individual connected with an agency are usually indexed under that person's name, with a reference to his/her name from the name of the agency.

Testimony given by NLC is indexed under NATIONAL LEAGUE OF CITIES--TESTIMONY as well as the subject area and the name of the person testifying.

State leagues are indexed under the general term STATE LEAGUES--(STATE) rather than under the specific form of their name.

Legislation on a specific topic is indexed under the topic, e.g. a discussion of the Emergency Medical Services Systems Act of 1973 is under HEALTH--EMERGENCY MEDICAL SERVICES. Legislation covering many topics, or discussion of legislation in general, is under LEGISLATION.

Reports, books and other publications discussed are indexed under the name of their author as well as the subject.

These types of articles are included in the index:

- articles, including articles about a report or other publication which discusses its content or the issues it raises
- special sections, as a whole
- individual articles within the special section
- reading column
- news briefs
- letters to the editor

Omitted from the index are:

- urban almanac
- urban action box score
- munimart
- articles which merely announce the availability of a publication
- articles announcing positions open, meetings or courses to be held, including Congress of Cities

A typical entry is as follows:

ENERGY-GAS

methane from landfill as fuel source

Apr 9, 13

This means that there is an article on the broad subject of energy, specifically gas energy, which discusses methane from landfill as a source of fuel; the article is found in the April 9 issue beginning on page 13.

Please note that due to a numbering error there are two issues dated January 29 and called volume 2 number 5. These are cited like this:

Jan 29 (1) - lead article on p.1 is headlined "96th Congress:  
Money will be the major issue"

Jan 29 (2) - lead article on p.1 is headlined "Carter budget  
devoted to warring on inflation"

Under each subject heading in the index the descriptive phrases for the specific articles are arranged chronologically by date of publication.

This is our first attempt at providing an index for Nation's Cities Weekly. We intend to produce quarterly cumulating indexes for in-house use and an annual index for sale to the public. We would very much appreciate any comments or suggestions from users of this index.

The indexing has been done by members of NLC's Office of Communications and Municipal Reference Service, and edited by Olivia Kredel.

# INDEX OF SUBJECTS

- ACIR  
See ADVISORY COMMISSION ON INTERGOVERNMENTAL RELATIONS
- AFL-CIO  
organized labor to work with DOL in summer youth programs Jun 25, 2
- ACADEMY FOR CONTEMPORARY PROBLEMS
